

Society for Developmental and Behavioral Pediatrics

SPECIAL INTEREST GROUPS

SDBP Special Interest Groups (SIGs) were instituted in 2007 to provide a forum for interested SDBP members from a variety of disciplines to collaborate and to facilitate communication in a particular area of Developmental-Behavioral Pediatrics, convening yearly at the annual SDBP meeting. These SIGs were envisioned as a forum to facilitate more informal networking opportunities in a specialized topical area at the annual meeting, as well as to provide a platform from which collaborative research projects and national Quality Improvement initiatives, such as learning collaboratives and national patient registries in the field of DBP, might develop. These QI projects would be designed to improve the care of children with DBP conditions, while fulfilling ABP Maintenance of Certification Performance in Practice standards for DBPs. SDBP members were surveyed in 2007 and were overwhelmingly in support of this idea.

Other roles for SIGs within the SDBP are expected to develop in the coming years. For example, a SIG might convene with the purpose of developing a curriculum in a particular area in DBP. The SDBP Board of Directors is supportive of each of the individual SIGs, acknowledging that each SIG's continuing success is fueled by the contributions of its individual members. The SDBP Board of Directors has provided an operational template for these SIGs.
